DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis, as cited by applicant.

Lewis teaches an apparatus for singling out tablets for a rotary tablet-compressing press, which includes a rotor with a plurality of dies, a control means to control the function of the rotary press, and a rejection means which reject non-acceptable tablets. The rejection means of Lewis includes a nozzle which, through a line and a controllable valve, is adapted to be connected to a pressure source in order to route a tablet into a reject duct, the valve being operable by the signal of a control means. A pressure sensor is disposed in the line, which delivers a signal of whether the valve is opened or closed, and a logic evaluation circuit being provided into which the pressure signal and the control signal are input and which produces a feedback signal for the control means. HE further teaches that if the sensor signal is not terminated an error signal will be produced after the sensor signal persists for a period of time and an error signal will be produced if the sensor signal does not change when a control signal is produced.

Response to Arguments

Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
